

Maintenance

For the labour element of this work and the time taken to get to and from your property we charge £45.00 + Vat per hour (please note; our installers are based in London). A minimum charge of four hours for travel and work is also applicable (irrespective of the time spent at your property).

Unfortunately, we require maintenance work to be paid for in advance. If you would like our assistance please call us and we'll provide you with an estimate for the cost of the work you require. If we are requested to proceed with the work any time required above our estimate can be paid for, by cheque or card over the telephone, when the work is complete; or in the event that we take less time we will refund the difference within seven days (please note; costs are rounded up to the nearest half hour).
